HR-POL-012 Remote and Hybrid Working Policy

Northwind Talent Ltd | People Operations | Version 3.0 | Effective 15 January 2026

1. Purpose and scope

This policy explains how employees of Northwind Talent Ltd may work remotely or on a hybrid pattern. It applies to all permanent and fixed-term employees in the UK, the Netherlands and India. Contractors are covered by their own agreements and are out of scope.

The policy owner is the Head of People Operations. Questions should be raised with your HR Business Partner or through the People Helpdesk.

2. Hybrid working pattern

The default pattern is hybrid: a minimum of two days per week in the office (anchor days are Tuesday and Thursday) and up to three days working from home. Teams may agree a different anchor day with their Director, provided at least 40% of working time is spent in the office averaged over a calendar month.

Fully remote contracts are by exception only and require approval from the relevant Director and the Head of People Operations.

3. Working from another country

Employees may work temporarily from a country other than their country of employment for up to 20 working days in any rolling 12-month period. This is known as Temporary Overseas Working.

Requests must be submitted through the HR portal at least 15 working days before travel using form HR-F-031. Approval is required from your line manager, the Tax team and Information Security. Some countries are excluded because of tax, immigration or data-protection risk; the current list is maintained on the People intranet.

Working from abroad for longer than 20 days, or on a recurring basis, is treated as an international assignment and is handled by the Global Mobility team.

4. Home office equipment and allowance

New joiners receive a laptop, monitor, keyboard and headset. In addition, employees on a hybrid or remote pattern may claim a one-off home office allowance of GBP 300 (UK), EUR 350 (Netherlands) or INR 20,000 (India) for a desk, chair or lighting. Receipts must be submitted within 60 days through the expenses system under category HOME-EQUIP.

A monthly connectivity allowance of GBP 25 / EUR 25 / INR 1,500 is paid through payroll to employees who work from home at least two days per week.

5. Health, safety and security

Employees must complete the Display Screen Equipment (DSE) self-assessment within the first month of hybrid working and repeat it every two years. Company devices must only be used on secured networks; public Wi-Fi must always be used with the company VPN switched on.

Confidential documents must not be printed at home. Any loss of a device must be reported to the IT Service Desk within one hour.

6. Review

This policy is reviewed annually by People Operations. Version 3.0 replaces version 2.1 and takes effect on 15 January 2026.
